**WHY UTCN**

# ***Welcome to the Technical University of Cluj-Napoca - UTCN***

The Technical University of Cluj-Napoca (UTCN) is a prestigious university in Romania, recognized on a regional, national and international level. It has a complex structure, comprising 9 faculties in Cluj-Napoca, 3 faculties in Baia-Mare and 4 extensions in Alba-Iulia, Bistrița, Satu-Mare and Zalău.

The fields of study have a wide range, from engineering to architecture, fundamental sciences to socio-human sciences and arts. The educational offer includes bachelor's, master's and doctoral programs.

## ***Where will you study?***

*visitclujnapoca.ro*

*The Heart of Transylvania*

In Cluj-Napoca, the largest city in the heart of Transylvania, one of the most important university centers in Romania and a truly cosmopolitan city, in modern teaching spaces and laboratories equipped with cutting edge technology, developed together with the large companies in the field.

EUROPEAN UNIVERSITY  
OF TECHNOLOGY

*In a university member of EUT+  
European university of technology!*

# ***Technical University of Cluj-Napoca member of the European University of Technology - EUT+***

The Technical University of Cluj-Napoca (UTCN) is one of the seven prestigious and traditional universities of technical education in Europe that have come together to found the European University of Technology - EUT+. This alliance will seek to establish a new type of university that is active both locally and at the European level, generating excellence and added value for European society, economy and culture. European universities are transnational alliances that will become the universities of the future, promoting European values and identity and revolutionising the quality and competitiveness of European higher education.

The project is coordinated by the Université de Technologie de Troyes (France) and includes the following members:

The objectives of the **European University of Technology**, through the synergy of its members and partners, are:

- to guarantee the automatic recognition of credits allocated to courses taught in the institutions of the consortium;
- to create a common EUt+ curriculum at undergraduate, master and doctoral levels that will ultimately lead to a single EUt+ degree;
- full integration of the programmes of the eight universities, to give students the choice of campus and of how to acquire ECTS credits;
- facilitating student mobility based on a single European Student Card, which will provide access to all services (libraries, sports and leisure facilities, accommodation, etc.);
- facilitating the mobility of students based on a single European Student Card, which will provide access to all services (libraries, sports and leisure facilities, accommodation, etc.) on all eight campuses;
- Similarly, the creation of a single professional EUt+ card for academic and administrative staff in the consortium universities to ensure access to all services across the eight campuses;
- Stimulating lifelong learning by integrating our offerings to create and develop a single EUt+ portfolio;
- development of institutional policies for equal access, with a focus on inclusion and gender equality;
- stimulation of creativity and innovation by repositioning humanities disciplines in engineering programmes, in line with the "Think Human First" motto;
- development of shared infrastructure (library resources, databases, learning and research platforms, etc.);
- encouraging multilingualism, 9 of the 24 official EU languages are spoken on the consortium campuses, and all three EU alphabets are used.

*The EUt+ consortium is built around a common vision whose central pillar is defined according to the motto "Think Human First". EUt+ will embrace the European vision of building a socio-technological world where people and society are the primary beneficiaries of technological development based on utility-inspired and solution-oriented approaches. EUt+ will reach out not only to those who traditionally attend university but also to the rest of the citizens, inviting them to engage in European construction through the activities generated by EUt+.*

[www.univ-tech.eu](http://www.univ-tech.eu)

*„The European University of Technology EUT+ is an entirely new objective. It is about creating an integral space where everyone can stand out, whether student, teacher or researcher, staff member or collaborator. EUT+ is based on the European values, from which it draws its inspiration: we want to actively participate in developing European technology, a technology that carries and respects European values, first and foremost in the service of the human person, as well as respect for the environment. Developing European technology means participating in continental sovereignty, preserving and applying our values. European geography is marked by territorial diversity, offering everyone an openness to different cultures, the pleasure of getting to know each other and meeting each other in what makes us different.”*

Timothée Toury,  
EUT+ project leader, delegated director in the consortium

## ***A world-leading university, the result of excellent research***

Research is the component that has strengthened the position of the Technical University of Cluj-Napoca in the most prestigious world university rankings. In 2019, UTCN was included for the first time in the world university rankings by **THE (Times Higher Education)** - World University Rankings, in areas such as Computer Science, Physical Sciences and Engineering & Technology, occupying outstanding positions.

According to another prestigious ranking - **QS Stars Rating System (UK)**, UTCN belongs to the category of internationally excellent universities (4 stars), with fields in the corresponding rankings occupying extremely honourable positions. In 2021, the QS Subject Rankings ranked UTCN for the first time in one of the five main subject areas, namely Engineering and Technology. The three majors in which our university occupies internationally influential positions are Computers Information Technology, Electrical and Electronic Engineering, and Mechanical, Aeronautical and Industrial Engineering.

## ***What can you study?***

The Technical University of Cluj-Napoca has 12 faculties in two university centers, Cluj-Napoca and Baia Mare, to which are added the extensions in important cities of the region. The study programs are conducted in romanian but also in English, German and French. The university is offering over 205 undergraduate and master's degree programs.

### ***Cluj-Napoca***

- Faculty of Architecture and Urban Planning
- Faculty of Automation and Computer Science
- Faculty of Automotive, Mechatronics and Mechanical Engineering
- Faculty of Civil Engineering
- Faculty of Electronics, Telecommunications and Information Technology
- Faculty of Materials and Environmental Engineering
- Faculty of Building Services Engineering
- Faculty of Electrical Engineering
- Faculty of Industrial Engineering, Robotics and Production Management

### ***Baia Mare***

- Faculty of Engineering
- Faculty of Letters
- Faculty of Sciences and Humanities

### ***Extensions***

- Alba Iulia
- Bistrița
- Satu Mare
- Zalău

*Each of the 12 faculties offer unique opportunities, contests and competitions for students, inter-university mobilities and exchanges, internships and professional practice opportunities.*

## ***Where can you stay when studying at UTCN?***

UTCN has two campuses on a surface of 50,000 square meters in total, in Cluj-Napoca and Baia-Mare. These campuses have modern accommodation spaces and sport and leisure facilities: Observator Campus, Măraști Campus, Baia-Mare Campus.

The student dormitories are refurbished, equipped with reading rooms and libraries, offering access to internet connection, canteen and sports ground for free. Accommodation in dormitories is provided at the beginning of each academic year, at students request, depending on the level of comfort of each dormitory and the number of beds allocated to each room.

## ***Study and have fun***

The modern **UTCN Library** has a headquarter, 5 subsidiaries, 4 extensions (Bistrița, Satu Mare, Zalău and Alba Iulia), a publishing house, print house, bookstore, and archive.

The **UTCN Swimming Complex** in Cluj-Napoca, known as The Olympic pool, is one of the best places for sport and relaxation in the city. There are 2 large swimming pools (indoor and outdoor) and a small swimming pool.

**Cultural Club** - since 1966, the Technical University of Cluj-Napoca has initiated and cultivated the interest in arts and culture education. This way, students have the chance of becoming creative individuals in arts and culture dedicated mainly to their peers.

***Students Cultural Club  
in Cluj-Napoca***

**Românaşul** student folk ensemble  
**Gaudeamus** student theatre (classic, experimental, musical, revue)  
**Brigada BUM** comedy group  
**Honoris** music group  
**Infini Skills** dance ensemble  
**Nova** modern and social dance group  
**Observator** folk cenacle of interpretation and idea sharing  
**Pasărea Ibis** folk group

***Students Cultural Club  
in Baia Mare***

**Nord** student folk ensemble  
Students ensemble of traditional Romanian dances  
Vocal group of traditional Romanian music  
**Sf. Ioan Damaschinul** Men's Choir  
The vocal group of the **Ep. Dr. Alexandru Rusu** seminary

**Student camps** - UTCN organizes twice a year mountain and seaside camps, in winter and summer. In order to register for the camp, you should follow the announcement of camp organization and apply through a standard form at the university secretariat.

**Career Counseling and Guidance Office** is assisting you throughout your studies. The Office organizes each year the ***Career Days at UTCN*** where students can interact directly and establish connections with employers, have job interview simulations, discover business offers for professional practice and find out the real labor market requirements.

You will certainly pay a visit to the **International Relations Office** to find more details about the institutional and inter-university student mobilities and exchanges.

### **Erasmus+**

In this period of your life, you might want to go on an adventure and travel as much as you can. Our university gives you the best solution. No, you won't get rid of school, but you will explore new places, a new multicultural environment and make a lot of friends. If we have made you curious, then you know that Erasmus is an experience you cannot miss!

# ***Enjoy Cluj***

## **Electric Castle**

Electric Castle is the first festival which brought the electronic music and a live concert on the stage of a castle. Electric Castle aims to be more than an extension of a concert and wants to offer the participants a complete experience by combining the history-filled, mesmerizing location with the modern and urban touch through the day activities (whether it is extreme sports or audio-video production workshops) and various genres of music.

***... anytime, anywhere***

### **Untold Festival**

Untold Festival is the winner of the “Best Major European Festival” award at the European Festival Awards 2015. It is the biggest electronic music festival in Romania. All editions have been a real success, filled with recognized artists who created an awesome atmosphere.

**UNTOLD**

## Jazz in the Park

The idea of bringing good music to the Central Park in order to make music accessible for everyone, was born in the '70s in USA and quickly conquered the major European cities. In Romania, the idea burst in Cluj-Napoca in 2013. Stages where you can listen to jazz, blues, folk and classical music are built for those who happen to be the park or those who come especially for the event. You will be surrounded by music all day long, played by Romanian artists and guests from abroad!

## Delahoya

This is Romania's oldest electronic music festival. It is held in September and promises fun days and good music.

## TIFF - Transylvania Internațional Film Festival

The Transylvania International Film Festival (TIFF), organized by the Association for the promotion of Romanian Film, is the first and largest festival dedicated to Romanian feature film.

Founded in 2002 in Cluj-Napoca, TIFF managed to become very quickly the most important event for the Romanian film and one of the most spectacular annual cultural events in the area. TIFF is a Member of CENTEST – the Alliance of Central and Eastern Europe Film Festivals and is supported by THE MEDIA - Creative Europe Program. In 2011, TIFF was accredited by the International Federation of Film producers' associations (FIAPF), being positioned among the top 40 most important festivals in the world.

**TIFF.**  
Transilvania International  
Film Festival Cluj-Napoca

## **The Color Run**

Known as “Happiest 5k on the Planet”, The Color Run is a euphoric race, a splash of colors as a symbol of health, joy and uniqueness. There 2 editions of Color Run held in Cluj-Napoca annually.

## **Cluj Never Sleeps**

Cluj Never Sleeps is a white night of culture, the time when the city becomes younger, more alive, and dynamic, when art, cultural diversity and night life are merged to give life to a vibrant atmosphere on the streets of Cluj.

## **TEDx**

TED is a trademark of conferences where some of the world's most important thinkers and activists are invited to share information in the areas they are passionate about. TED defines its mission as “ideas worth spread”.

# Museums

## Cluj-Napoca Art Museum

The Art Museum of Cluj-Napoca holds valuable heritage pieces of Romanian and European art: paintings, graphics, and decorative art (dating from the 15th to the 20th century). Founded in 1951, the museum is established in an important 18th century Baroque building. The space on the palace upper floor is designated for the National Gallery.

## “Romulus Vuia” National Ethnographic Park

The National Ethnographic Park *Romulus Vuia* in Cluj-Napoca, the first open-air museum in Romania, and the sixth one in Europe, was founded on the 1st of June 1929 by Professor Romulus Vuia with the intent to build a complex ethnographic museum.

## **The National History Museum of Transylvania**

Its beginnings date back to the 19th century, to 23 September 1859, to be more specific, when the Ardelean Museum fortress was founded. The museum hosts antiques, botany, zoology, and mineralogy collections. The museum displays for visitors an impressive collection of unique pieces, rarities, or objects of great value.

## **The Zoological Museum**

Established in 1859 as a section of the Transylvanian Museum, the Zoological Museum of the University of Cluj has gradually increased its collections and currently numbers more than 300,000 pieces. At the end of the first decade of the 20th century, after the creation of “Dacia Superioară” University, Cluj-Napoca acquired a European reputation of a city for students. The biologists Alexandru Borza and Emil Racoviță contributed to this reputation, the latter being the first tenure teacher of the Department of General Biology in Romania, established in 1920.

## **Museum of the Orthodox Metropolis of Cluj**

The celebration of 90 years since the re-establishment of the Orthodox Eparchy of Cluj was an exceptional occasion for the inauguration of the Museum of the Orthodox Metropolis of Cluj. On 6 December 2011, St. Nicholas day, after the solemn mass held in the Cluj-Napoca Orthodox Cathedral, the Patriarch of the Romanian Orthodox Church Daniel, together with a large number of hierarchs attended the consecration service of the Museum of the Orthodox Metropolis of Cluj.

## **Cluj-Napoca Botanical Garden**

The Botanical Garden of the "Babeş - Bolyai" University in Cluj-Napoca was founded in 1920 by Prof. Alexandru Borza. Situated in the southern part of the city, it is one of the most beautiful and complex botanical gardens in Southeast Europe. The garden occupies 14 ha of land, on which approximately 10,000 plant species from all over the world are grown. The garden is divided into several sectors: Ornamental, phytogeographic, systematic, economic and medicinal.

## ***Events organized by UTCN***

### **“PRO INVENT” Invention Salon**

Every year, researchers from Romanian and foreign universities, companies, research centers, inventor associations and physical entities, meet in The International Exhibition of Research, Innovations and Inventions “PRO INVENT”. Hundreds of inventions in almost all fields of activity, from agricultural products, orthopedic prostheses, environmental protection, mechatronics, food industry, habitat air-conditioning systems, air filters, cosmetics, composite board furniture and many others are displayed for the general public and judged. In the lounge, students can manifest their creativity in a special section where sensational projects are displayed, judged, and awarded.

### **Graduation Ceremony**

The graduates of each class are celebrated by the entire community of UTCN through the graduation ceremony. The event has become a tradition in Cluj-Napoca and it brings together more than 2,000 graduates every year. They share the joy of fulfillment with the university academic body, representatives of local authorities, family and friends. After the ceremony ending the entire assembly is marching on the streets of the city singing Gaudeamus igitur.

### **Jobshop**

Jobshop is a complex career event, bringing recognized companies close to students and graduates interested in starting their career. During the event, students can take part in presentations, visits to companies or workshops. At the stands they have the opportunity to apply for a professional practice or an internship at the most prestigious companies.

## Career Days

If you want to be prepared since college for your employment interviews, we offer you this opportunity! The UTCN Career Counseling and Guidance Office organizes "Career days at UTCN" each year, in the first week of April.

The activities involve students, graduates, teachers of UTCN and partner companies: visits for students organized in Cluj-Napoca to partner companies, simulations of job interviews with representatives of participating companies, round tables having as main theme "the real requirements and challenges of the labor market", as well as an informative and advice session on personal branding techniques for the future career.

## Freshers' week

If you got accepted at UTCN, you will not start this journey alone! The UTCN Career Counseling and Guidance Office organizes the "freshers' week" for the new students! The event includes activities aimed at providing the freshers with the opportunity to discover or rediscover Cluj, information about accommodation, timetable, classrooms, "counselling class", open dialogs with UTCN teachers, "How to be a student" class, meetings with older students, sports competitions, and other social activities.

*Moreover, each faculty has its particularities, special events organized for students, competitions and contests, scientific communication and conference sessions, workshops, and specialized seminars.*

*We are inviting you to discover an open-minded community, in a university with numerous development opportunities, modern, future-oriented, adapted to the latest technical trends and person-centered.*
